Connecting with Us

Diverse facilities have opened their doors to **Pet Partners of Eastern Maine** therapy animal visits. Well-trained and screened handlers and their animals can benefit the health and well-being of people in healthcare facilities, schools & universities, workplaces, and many other settings.

Research shows that positive interactions with animals helps with blood pressure regulation, pain relief, stress relief, and joy. Visits from therapy animal teams can normalize stays away from home for hospital patients, improve motivation to participate in treatment protocols, and lessen worry, anxiety, unhappiness, and pain.
